

HIMANSHU PRATAP SINGH

Phone: 7905359265 | Email: himanshupsingh47@gmail.com | LinkedIn: <https://www.linkedin.com/in/himanshupratapsingh/>
GitHub: <https://github.com/himanshupsingh-dev> | Portfolio: <https://himanshupsingh-dev.github.io/portfolio/>

Professional Summary

A results-driven Software Developer with 3+ years of experience in designing and developing robust web applications using **Angular, React and NodeJS**. Skilled in building secure, scalable, and user-centric solutions across domains such as healthcare, IoT and AI domain space. Proficient in integrating **RESTful** and **GraphQL APIs**, implementing authentication mechanisms, and collaborating within Agile teams to deliver high-quality software. Continuously stays updated with emerging technologies to enhance development practices and application performance.

Skills

Frontend Technologies: React, Angular, Next.js HTML, CSS, SCSS, Material UI, Bootstrap, Tailwind, Keycloak.

Backend & APIs: Node.js, .NET, RESTful APIs, JSON, HTTP requests, GraphQL.

Programming Skills: Python, JavaScript, TypeScript, C#, CPP, Java.

Version Control & DevOps: GitLab, Gerrit, Docker, Angular Http server, Tomcat, Jenkins, Configurable Deployment.

Testing & Debugging: Unit Testing (Jasmine, Karma), Jest, Debugging Tools.

Data & Tools: Qlik Sense, SQL, Jira.

Soft Skills: Teamwork, Communication, Time Management, Presentation Skills.

Experience

EY GDS, Pune, Maharashtra

September 2025 - Present

Senior Software Engineer

- Engineering OpenAI API integrations for code generation within legacy projects, enabling a more efficient development lifecycle and accelerated modernization.
- Collaborating with cross-functional teams to define integration requirements and successfully implementing AI-driven solutions for code refactoring and generation.

TATA Elxsi, Bangalore, Karnataka

November 2022 - July 2025

Software Developer

Baxter (Onsite), Bangalore

Jan 2025 - Present

- Developed responsive and accessible UI components using **Angular 19, Tailwind CSS, SCSS, and TypeScript** for a secure healthcare portal.
- Integrated **Keycloak-based authentication** to implement secure login flows and **role-based UI rendering**, enabling access control and personalized interfaces for administrators, and general users.
- Integrated **GraphQL APIs** for real-time events and notifications, utilizing **GraphQL introspection** for query design and debugging in **Postman**.
- Built a custom **video streaming module** using **Shaka Player**, managing state reactively with **RxJS**.
- Enable **dynamic deployments** for multiple hospitals by integrating environment-specific **JSON deployment files** into the build process.
- Built key UI features such as **searching for debouncing, filtering, and sorting**, and handling component-based data communication (parent-child via **@Input/@Output** and shared services). Wrote unit tests using **Jest** to ensure performance, coverage, and maintainability across these critical components.

Ooredoo, Qatar - IoT Device Web Portal

Feb 2024 - Dec 2024

- Developed a large-scale **IoT** portal for real-time device tracking and status visualization using **Angular 16**.

- Developed **user authentication module** using JWT, enabling secure login, session management, and access restriction based on user roles.
- Integrated **Google Maps API** for real-time geolocation updates and worked on the **Ericsson Aeris Apis** and **Node.js**.
- Used **RxJS** for live data binding and developed reusable, responsive UI components.
- Managed deployments with **Docker**, and code versioning with **GitHub**.
- Applied **Jasmine & Karma** for unit testing and used Jira for Agile processes.

TEngage – Telehealth Platform

Feb 2023 - Jan 2024

Built a telehealth web solution to facilitate real-time communication between patients, doctors, and hospital staff.

- Developed **modular and accessible UI components** using **React (JSX)**, **HTML**, **SCSS**, and **ES6**, styled with **Material UI** and **Bootstrap**.
- **Integrated Amazon Chime SDK** to enable **secure video conferencing** and virtual consultations.
- Consumed and managed **RESTful APIs** for real-time appointment and messaging features.
- Collaborated cross-functionally with QA and backend teams to identify issues, test, and deliver features efficiently.

Smart Clinical Trials Platform

Nov 2022 – Jan 2023

- Created responsive interfaces using **HTML**, **SCSS**, **Material UI** and **Angular 16** for managing pharmaceutical trial data.
- Built **component-based UIs** and integrated APIs for real-time monitoring.
- Maintained **JSON-based** data flow and performed unit testing to ensure reliability.

Diagonal.ai, Bangalore

August 2022 - October 2022

Data Analyst

- I worked as a Data Analyst, gaining hands-on experience with Qlik Sense to design and develop KPI dashboards using real-world company datasets.

Education

- **MVJ College of Engineering**, BE in Computer Science Engineering, 2018–2022, Bangalore, Karnataka, India.
- **Kendriya Vidyalaya No.2 Jhansi Cantt**, CBSE Class XII, 2017–2018, Jhansi, Uttar Pradesh, India.
- **Mother Sita Public School**, CBSE Class X, 2015–2016, Jhansi, Uttar Pradesh, India.

Achievements and Certifications

- [Microsoft Certified: Azure AI Fundamentals](#)
- [GitHub Copilot](#)
- **Extra Mile Award, TATA Elxsi** – Aug 2023
Awarded for outstanding performance, contribution, and perseverance in delivering impactful results.
- JavaScript certification from LinkedIn learning
- ReactJS: Building an Interface from LinkedIn learning
- Docker certification from LinkedIn learning
- GIT certification from O'Reilly
- APIs & RESTful APIs from O'Reilly
- AWS Cloud Masterclass - Cloud Practitioner Essentials (Self-Placed) FutureSkills Prime

Hobbies and Interests
